15. An application to obtain the extension of a former Patent to the whole of the Dominion, must be accompanied with the former Patent itself, with neat DUPLICATE COPIES of the original specification and drawings, certified by the inventor before the same two witnesses signing the Petition, and the said Petition shall be made after the following form:

To the Commissioner of Patents, Ottawa:—I, (names) of the (locality of residence) in the County of (name of County) in the Province of (or elsewhere as the case may be,) being a British subject (or a resident of Canada for upwards of a year,) and being the discoverer (or inventor) of the subject matter of a Patent granted to me on (day, month and year,) in the Province of [Nova Scotia, New Brunswick or former Provinces of Canada, or for the Provinces of Ontario and Quebec as the case may be,] which I now produce, and the said subject matter of my said invention and patent called [name of invention] being not, with my consent, known, or used nor on sale in any of the other Provinces of the Dominion, I hereby, therefore, pray, that a Patent, under the "Patent Act of 1869," be granted to me extending the privileges of my former Patent over the whole of the Dominion, for the remainder of the term mentioned in my former Patent, namely to the [insert day, month and year at which the former Patent was to expire]

In testimony thereof, I have signed, in the presence of the two undersigned witnesses, at the place and date hereunder mentioned.

(Place and date.)

(Signature of Applicant.)

Signature of the two witnesses.

CANADA PATENT OF INVENTION.

16. A Patent of Invention will be made after the following form:

[Seal]—Whereas, in accordance with an Act of the Parliament of Canada, called "THE PATENT ACT of 1869,"

(Name of Patentee.)

of the [name of locality] in the Province of [Name of Province] being a resident of Canada, having elected his domicile for the purposes of the present patent in [designation in full of domicile elected] having otherwise complied with the requirements of the said Act, to obtain a patent, and having furnished specification and drawings, one duplicate of each being hereunto annexed, as part essential of this present patent, the said specification and drawings being the description and illustration of the said invention called [name of the invention or improvement] of which the said [names] declares himself to be the inventor.

THE PRESENT PATENT is granted to him, his heirs, assigns or other legal representatives for the period of five years from the date thereof, subject to extension of further periods, in accordance with the "PATENT ACT of 1869," to confer on the said Patentee all the privileges intended to be conferred by the said Act, or by the Patentee complying with the further obligations required by the said Act.

PROVIDED ALWAYS, that the validity of this present Patent rests on the truthfulness of the allegations, description and specification of the said Patentee.

The present Patent, however, shall cease and determine, and be null and void at the end of three years from the date thereof, unless the patentee shall, within that period, have commenced, and after such commencement, carry on in Canada the construction or manufacture of the said invention and shall cease and determine and be null and void at the end of eighteen months from the granting thereof, if the patentee or his legal representatives import or cause to be imported into Canada the invention for which this patent is granted.

IN TESTIMONY WHEREOF the present Patent has been signed, according the said Act, sealed with the seal of the Patent Office, and countersigned in the Department of Agriculture on the (date, month and year written in full, and prominently.)

Countersigned Deputy Commissioner.

Signature of the Commissioner of Patents or of a Member of the Privy Council.

The Specification will be attached to the patent to form an essential part thereof, and the first folio of the said specification will be sealed at one corner with the seal of the Patent Office.

The present form, otherwise remaining the same, will be altered in some particulars to meet the circumstances of the case, when the Patent is given to joint inventors, to an assignee or assignees, to legal representatives, or when it is a patent extending a former patent to the whole of the Dominion, or is a re-issue, or in any other special case.

17. The models required by law must be neat and substantial working models, the dimensions of which are not to exceed, in any case, eighteen inches in their longest side, unless otherwise allowed by special permission previously obtained; such models must be so constructed as to show exactly every part of the invention and its mode of working. In cases where samples of ingredients and samples of the composition made of such ingredients, [neither of which being dangerous or explosive substances] are required by law, they must be contained in glass bottles properly arranged. Both models and bottles must bear the name of the inventor, the title of the invention and the date of the application; and they must be furnished to the Patent Office free of every charge and delivered in good order.

18. All fees required by law shall be transmitted with the application to which they appertain in values not subject to any discount, and are better made, whenever practicable, in Post Office money orders, inclosed in registered letters.

19. All applications must be proceeded with and perfected within two years after the lodging of the petition, in default of which it will be regarded as abandoned, and all previous proceedings and payment of fees will be held at the expiration of that period as of no avail.

20. Two or more separate inventions cannot be claimed in one application, nor patented in one patent, unless they are so dependent of and connected with each other as to be necessarily taken together to obtain the end sought for by the inventor; and in this latter case the Commissioner of Patents is the judge as to whether or not the pretensions of the applicant are founded in fact and reason.
