The volume for 1872 is the sixth year of the publication of the *Year Book and Almanac of Canada*.

The publishers are again happy to announce that it continues to be received with increasing favour, not only in British America, but in Great Britain, the United States and in distant parts of the British Empire, being everywhere quoted for public information respecting the Dominion.

The object of the Publishers, from the first, has been to make this work an annual hand-book of public information of common interest; which it is not only desirable but necessary that all parts of the Dominion should have of each other, for the proper working of the Union.

The greatest possible pains have been taken to secure accuracy of statement; and statements published in the *Year Book* may be accepted as being as accurate as those officially published in blue-books. This and convenience of reference are primary objects of the publishers.

The information of public matters of interest which the *Year Book* contains is not anywhere else grouped together in any existing publication.

The publishers believe that the present volume may be accepted with the same confidence by the public as its predecessors have been.

THE INDEX, will be found at the end of the reading matter.

NOTICE—Back numbers of the *Year Book*, may be obtained on application to the publishers, containing a continuous record of public events in Canada for the last six years.

Any Advertisement sent to the *Year Book*, not received in time for the first edition, will be inserted in all subsequent editions of this year, and in the first edition of next year, so that it will obtain one clear year's insertion.

From having a larger circulation than any other publication in the Dominion, extending to all parts, it offers the greatest advantages to advertisers.
