Thus if we take the population of the Dominion at four millions the net debt, deducting the assets, is \$19.25 per capita; and if we take it at three millions and a half it is \$22.34½, and bearing interest at the average rate of 5.56. The cost, then, in interest of the magnificent Public Works which Canada possesses, and which so much increase its wealth and prosperity, is not more than a dollar and a quarter per head per annum,

with the prospect of very rapid increase of population to divide even this small burden. It may, however, be advisable for the Dominion to construct in the future, other Public Works. It is in a position to do so if it requires.

requires.

We subjoin the usual statement of Receipts and Expenditure up to the latest date it appears in the Public Accounts:—

STATEMENT of Receipts and Payments of the Dominion of Canada, from all sources, for the Year ended 30th June, 1870.
