As Coal is rapidly superseding Wood in all large Cities we beg to draw attention to the Fuel supplied by this Company.

As a Steam Coal the most careful tests prove it to be superior to any Scotch or English Coal imported.

For Grates and Stoves, it is much more economical than either Wood or Anthracite Coal.

For Cooking Ranges it answers admirably.

This Company is a Montreal organization, and has introduced here, during the present season, over *forty-six* (46) *thousand tons* of Coal, which have been sold at lower rates than ever ruled before in this market, notwithstanding the duty—it, therefore, deserves a preference.

Office: St. Sacramento Street.
