

Railways of the Dominion.

The usual Railway returns in the *Official Gazette* were last year discontinued, but a report by Mr. Brydges, giving general statistics of the Railways of Canada up to the close of 1875, was laid before Parliament, and a return, with a carefully prepared map, giving lists of all the railways constructed and under construction, exclusive of the Pacific, was published at the end of June of the present year. From this we compile the following table:
