

Dead
letters
that failed
of
delivery.

270. There was an increase of 83,187 in the number of letters sent to the Dead Letter Office, but, as the total number of letters increases, this result is only to be expected. The number of letters containing money or other valuables received at the office was 23,899, and the value of the contents was estimated at \$590,074. Of the number of letters received, 122,397 were letters originating in Canada, and returned as undelivered from the United States and other countries.
