Particulars of registered letters miscarried

327. Out of 3,280,000 registered letters estimated to have been sent in 1890, only 149 containing money failed altogether to reach their destination. The contents of 65 were made good by the officials held responsible for the loss, 24 weré stolen, in 41 the contents were said to be missing, and 10 were contained in mails which were said never to have arrived. There was a decrease in the total number sent, as compared with 1889, of 369,000, and in the number that miscarried of 94. One letter in every 22,013 letters registered miscarried, a much smaller proportion than in 1889, when it was one in 15,016 letters It will be seen that the number of letters that failed to reach their destination was much smaller than usual, which is attributed to the special measures taken last year to increase the safety of registered correspondence.
