405. The quantity of provisions exported in 1890 was greater than in any previous year, but the value had been exceeded both in 1888 and 1885. It will be seen that almost the whole trade is with Great Britain; out of a total value exported during the period of \$175,121,718, the exports to the United Kingdom are represented by \$142,007,724, being 81 per cent. The proportion in 1890 was 83 per cent.

Exports principally to Great Britain.

406. Though there was a slight increase in the quantity of pork, bacon, hams and lard exported in 1890, as compared with 1889, there has been a great falling off since the commencement of the period, when the quantity was 33,607,465 lbs., being 25,794,050 lbs. more than in 1890, and it remains to be seen what effect the additional duty imposed upon pork during the session of 1890 will have in increasing the supply.
