499. There was an increase in every province in the number of Horses. horses, that in Manitoba and The Territories being naturally the largest, the proportion of increase having been 418 per cent and 295 per cent respectively; in Ontario it was 29 per cent, and in Quebec 26 per cent. The increase for the Dominion was 37 per cent. In the United States, during the same period, the increase was a little over 50 per cent, the exact figures not being yet attainable.

500. In cattle there was an increase in each province, except in Cattle. Nova Scotia and New Brunswick, in each of which there was a decrease of nearly 5 per cent. More than two-thirds of the total increase took
