

763. The production of building stone in Canada during the past Building stone.  
ive years has, as far as known, been :—

	Cub. yds.	Value.
1886.....	165,777	\$642,509
1887.....	262,592	552,267
1888.....	411,570	641,712
1889.....	341,337	913,691
1890.....	382,563	964,783
1891.....	187,685	708,702
1892.....	219,097	608,301

The above figures are from actual returns, and are supposed to represent about four-fifths of the total production.

764. There is not space in a work of this kind to take up all the Minor minor mineral productions in detail. The table, at the commencement minerals.  
of the chapter, of mineral production in 1891 and 1892 will be some guide to their annual value.
