304. In this group there is very little chance for comparison of 1891 with 1881, the "Miscellaneous" having been given in the lump, without detail in the compilation of 1881. A few details have been secured. The returns for 1891 show 207 establishments for the manufacture of Indian wares, against 94 such establishments in 1881.

There were 4 dentistry establishments reported in 1881 and 154 in 1891. Either there was negligence in 1881 in recording these establishments, or there has been a great development in this home industry in ten years.

305. Summing up the groups, the returns show that in 1891 there were in all 75,741 industrial establishments, having an invested capital of \$354,526,259, employing 370,104 hands, distributing to wage-earners \$100,656,502 a year, and producing articles whose total value was \$476,183,356.

Of the capital invested, \$31,455,358 was in land; \$60,325,583 in buildings; \$81,373,337 in machinery and tools, and \$181,371,981 was capital other than "fixed."

Of the employees, 273,327 were men, 70,156 women, 19,556 boys and 7,065 girls under 16 years.

306. The following table gives the above details by provinces :—
