708. The total trade of the Dominion in 1893 was considerably larger than in any previous year since Confederation, the excess over 1883, the year of the next largest trade, amounting to \$17,-298,794. Taken separately, the exports exceeded any previous year by \$4,600,977, but the imports had been exceeded on one occasion, viz., in 1883. The imports exceeded the average of twenty-six years by \$22,010,132, and the exports exceeded the same by \$31,562,867. The average annual value per head during the twenty-six years since Confederation has been: of imports, \$25.48; of exports, \$20.64, and of the total trade, \$46.12; therefore, in 1893, the imports were 53 cents, the exports \$3.26, and the total trade \$3.79, above the average.
