1136. The number of letters per head increased in every province, with the exception of the province of Prince Edward Island, but the figures being only estimated on averages, cannot be considered as anything but approximate, and are, probably, generally under the mark, as the present system of enumeration is not calculated to do full justice to the correspondence of the country. British Columbia and Ontario have the largest correspondence in proportion to population, Manitoba and the Territories coming next, while the proportion is lowest in Prince Edward Island and Quebec.

1137. The following table gives the gross postal revenue and expenditure for every year since Confederation, and the proportion each year per head of population :—
