* Including Clergy Reserve Fund. ¶ Includes all teachers.

|| Schools are supported entirely by Government.

‡ No returns.

1436. In the Year Book, 1889, a concise history was given of all the principal higher educational institutions in the country, which it is not considered necessary, at present, to repeat, but the following summary table will show that the value of their buildings, endowments, &c., was upwards of \$12,000,000, and that some 9,000 students were attending them. If the students attending these institutions, as well as those receiving tuition at a large number of private establishments, particulars of which cannot be obtained, are added to the pupils of the public, high and normal schools, it will be seen that the whole number of those undergoing instruction of some kind is considerably over one million, so that more than one-fifth of the population of Canada is at the present time receiving direct education.
