1038. The total foreign trade of British possessions has increased very largely since 1871, and, as will be seen from the figures below, the trade with foreign countries has increased in a greater ratio than that with the United Kingdom, which has been steadily decreasing. There was an increase, however, of 3.62 per cent in the proportion in 1888 which was maintained in 1889, but which fell off over 1 per cent in 1890, and still further declined in 1891. In 1892 there was an increase over 1891 of 1.68 per cent and a decrease of 2.65 per cent in 1893, as compared with the previous year.

The following table taken, with the exception of the figures for 1891, 1892 and 1893, which have been added in this office, from Mulhall's "Fifty Years of National Progress," p. 30, shows the distribution of the trade of the United Kingdom at various dates, and shows also that the trade with India and the Colonies has increased in a much greater degree than that with foreign countries.
