In the United States the Commissioner of Labour published a report on marriage and divorce for the years 1867 to 1886. From this report it appears that 9,937 divorces were granted in the United States in 1867 and 25,535 for 1886, an increase of nearly 157 per cent in 20 years. The population probably increased about 60 per cent in the same period.
