Since the report of 1892 was published, it has been discovered that the returns received by the Statistical Division of the Department of Agriculture did not include the cases in the North-west Territories tried by the inspectors of the Mounted Police Force, with the exception of those appealed from and tried by the judges and stipendiary magistrates of the North-west. On the discovery being made, the staff examined all the Mounted Police records from 1883. The following table has been prepared, giving the number of cases which should have been included in the reports published since 1882.
