The business done by British fire companies during the period 1875-99 resulted in a balance in their favour of \$4,951,043, or a yearly average of \$198,141. If the adverse balance of 1877 (the year of the disastrous fire in St. John, N.B.) be omitted, the favourable balance would amount to \$9,-161,994, or an average of \$366,480 for each year.

The business done by United States fire companies during the period 1875-99 shows a favourable balance of \$946,275, or an annual average of

\$37,851.
