construction. Of the completed furnaces seven were in blast and five were idle on the date named. During 1901, four furnaces were erected by the Dominion Iron & Steel Company at Sydney, Cape Breton, Nova Scotia, three of which were blown in in 1901. The fourth furnace was put in blast in January 1902. Of the 12 completed fournaces, seven were equipped to use coke for fuel, three charcoal, and two charcoal and coke.

The following table gives, 1st, the production in Canada of pig-iron; 2nd, the importation of pig-iron, iron kentledge and cast scrap-iron for home consumption—the two columns making up the total consumption; and 3rd, the percentage of home manufactured pig to the total consumption:—

Year ended 30th June.	Production.*				Per cent of
	Made from Foreign Ore.	Made from Canadian Ore.	Imports.	Total Consump- tion.	Home produce to total consumption.
	* †Tons.	†Tons.	†Tons.	†Tons.	
1884		29,593	<b>‡52,184</b>	81,777	36.2
