The rate of interest paid in both classes of savings banks was formerly 4 per cent, but on October 1, 1889, it was reduced to $3 \frac{1}{2}$ per cent, and on July 1, 1897, it was reduced to 3 per cent.

The Post Office system . went into operation on April 1, 1868, when 81 offices were opened. At the close of the three months ended June 30, 1868, there were 2,102 depositors, 3,247 deposits had been made, and the amount on deposit was $\$ 204,589$. On June 30, 1901, there were 895 offices opened, 157,368 depositors, and the total amount on deposit was $\$ 39,950,813$.

In addition to the above there are special savings banks, chiefly the Caisse d'Economie of Quebec and Montreal City and District Savings Banks. The chartered banks also have savings branches, but the amounts on deposit in these branches are not separated from the general business and other deposits in the returns to the Government.
The following table gives the deposits with the Government in the two branches under Government control and the deposits in the special savings banks, but does not include deposits in the chartered banks and in the loan companies and building societies:-
