

## PRODUCTION.

is not included in the total of farm products, because the value of a large proportion of the quantity reappears in the values of the manufactured articles of cheese, butter, condensed milk, etc.

In 1900 there were four condensed milk factories, situated two in Nova Scotia, one in Ontario and one in Prince Edward Island. The total value of their products was \$269,520. In 1907 there were seven of these factories, the three additional establishments being situated one in Ontario and two in Quebec. These produced 10,334,485 lb. of condensed and evaporated milk and 1,841,650 lb. of condensed cream, the total value of the products being \$910,842. Table 12 shows by provinces for the year 1910 the number of condensed milk factories and the quantity and value of the products. The value of condensed milk, etc., was thus \$1,814,871 in 1910, as compared with \$269,520 in 1900. The total value of cheese, butter and condensed milk was \$39,047,840 in 1910, as compared with \$29,731,922 in 1900, which is an increase in the decade of 31.33 per cent. The average selling price of cheese in 1910 was 10.80 cents, as compared with 10.06 cents in 1900 and of butter 24.18 cents, as compared with 20.08 cents.

9.—Cheese and Butter Production in Canada, 1900, 1907 and 1910.
