

EDUCATION STATISTICS OF CANADA.

only to elementary schools; but again in the Northwest provinces and in British Columbia no line is drawn between the elementary and secondary grades. In Manitoba the sex of the pupils is not separately distinguished. Statistics of secondary education are only separately available for Quebec and Ontario. They are given in Tables 5 and 6. The model schools of Quebec are generally similar to the collegiate institutes and high schools in Ontario, except that the higher grades of the Quebec model schools do not prepare students for university matriculation, who enter from the academies.

Probably the most remarkable feature of these statistics is the extraordinary growth during the present century of the expenditure upon public education. In 1901, the first year of the century, the total expenditure for the purposes of public education in Canada was \$11,589,410; in 1913, the latest year for which complete figures for all the provinces are available, it was \$49,246,370, an increase of \$37,656,960, or 325 p.c.

3.—Number of Schools, Teachers and Pupils in Canada by Provinces, 1901-1914.

PRINCE EDWARD ISLAND (Year ended December 31).

Year.	Schools	Teachers.			Pupils enrolled.			Average attendance of pupils.	
		Male.	Female	Total.	Boys.	Girls.	Total.	No.	Per cent.
