

bridges and public improvements are considered as assets, while other provinces do not include them in their published statements. With a view to presenting the principal items which make up provincial assets and liabilities, the following co-ordinated table (Table 28) has been compiled, in consultation with the various provincial audit departments. Other miscellaneous assets of the provinces are briefly enumerated. Indirect liabilities, which are separately given, consist mainly, as shown by the foot-notes, of guaranteees of bonds and debentures. Generally speaking, both the assets and the liabilities of the provinces in which public ownership of public utilities exists, are proportionately larger than is the case in the other provinces.

23.—Statement showing the Ordinary Revenues and Expenditures of the Provincial Governments, for their respective fiscal years 1869-1920.

Year.	Prince Edward Island.		Nova Scotia.		New Brunswick.		Quebec.
