During the year ended June 30th, 1921, 421,261 acres were surveyed; 100,301 acres reverted to the Crown; 178,626 acres were sold and granted, the receipts including arrears, being \$148,041. Adding to the acreage available at June 30th, 1920, the area surveyed and the areas that reverted, and deducting sales and grants, there remained subdivided and unsold on June 30th, 1921, 8,025,703 acres. In northern Ontario, which comprises the territory lying north and west of the Ottawa and French rivers, the townships open for sale are subdivided into lots of 320 acres, or sections of 640 acres, and a half lot or quarter section of 160 acres is allowed to each applicant at the price of 50 cents per acre, payable one-fourth cash and the balance in three annual instalments with interest at 6 p.c. The applicant must be male (or sole female) head of a family, or a single man over 18 years of age. The conditions of purchase include actual occupation by the purchaser, the erection of a house, the clearance and cultivation of at least 10 p.c. of the area and three years' residence. Proxy regulations enable an individual to purchase a half lot of 160 acres and place an agent in residence, but the duties to be performed before issue of patent are double those required in ordinary purchases.

Free grants are available on lands within the districts of Algoma, Nipissing, Thunder Bay, Sudbury, Rainy River and Kenora, and between the Ottawa river and the Georgian bay, comprising portions of the counties of Renfrew, Frontenac, Addington, Hastings, Peterborough and Haliburton and the districts of Muskoka and Parry Sound. Grants of 160 acres are made to either single or married men in free grant territories where the land is subdivided in sections of 320 acres. In the Huron and Ottawa territory an allowance for waste lands may increase the grant of a single man to an area not exceeding 200 acres, while heads of families may secure 200 acres free and purchase an additional 100 acres at 50 cents an acre. The settlement duties for free grants are as follows: (a) at least 15 acres to be cleared and brought under cultivation, of which 2 acres at least are to be cleared and cultivated annually; (b) a habitable house to be built at least 16 by 20 feet in size; (c) actual and continuous residence upon and cultivation of the land for 3 years after location and thence to the issue of the patent.
