2.—Summary of Recent Manufacturing Statistics.

[For the scheme of reports issued annually on the manufacturing industries by the Dominion Bureau of Statistics, the reader is referred to the sub-section "The Dominion Bureau of Statistics," in the present volume, dealing with the organization of the Bureau and its publications.]

The statistics of manufactures relating to 1917 and later years, as presented in the present edition, have been revised where necessary to establish comparability. According to the census of 1922, there were in Canada 22,184 manufacturing establishments distributed throughout the nine provinces and Yukon Territory. The total number of employees was 462,573, the amount of capital invested \$3,125,772,761, and the output was valued at \$2,439,843,766. As compared with the revised statistics of 1917 there was a decrease of 22.7 p.c. in the number of employees, an increase of over 21 p.c. in the amount of capital invested and a decrease of over 13 p.c. in the value of products.

Statistics for recent years.—In Table 3 are given summary statistics of the manufactures of Canada for the three years 1920 to 1922 inclusive.
