¹ Including other oat products in 1920 and 1921.

² Included with other countries.

³ Not available; total oat products were 853,293 cwt., value \$3,903,843.

II.—INTERNAL TRADE.

1.—Interprovincial Trade.

Canada may be divided, according to Professor James Mavor, into the following five economic regions, each deriving its specific character from the predominant occupations of its people:—

1. *The Eastern Fishing, Lumbering and Mining Region* comprising the river valley and the gulf of the St. Lawrence, together with the Atlantic coast; in other terms, the Maritime Provinces almost as a whole, the northern part of the province of Quebec (excluding the former district of Ungava) and a portion of northern Ontario.

2. *The Eastern Agricultural and Industrial Region*, comprising the cultivated portions of the Maritime Provinces and of the provinces of Quebec and Ontario. In the latter provinces the cultivated areas extend along the north bank of the St. Lawrence, and along the valleys of its tributaries within the Canadian borders.

3. *The Central Agricultural Region*, extending from the Red River valley to the Rocky Mountains and from the Canadian-United States boundary to about 56° N. lat.
