Subjects of Instruction in Secondary Grades.—The subjects taken in the elementary grades of the publicly controlled schools are settled by the curriculum, but in the secondary grades there are usually options appealing to different types of pupils, wishing to follow different callings. Statistics available from six provinces of the subjects taken by pupils in secondary grades in 1924 are presented in Table 5, showing among other things the small number of pupils taking Greek and German in our secondary schools. Spanish has recently been made a secondary school subject in Ontario. Tables on pp. 52-56 of the "Annual Survey of Education, 1924" show in detail the changes in the subjects chosen by secondary grade pupils in the different provinces in recent years.

## 5.—Publicly Controlled Schools: Number of Pupils taking Certain Secondary Grade Subjects in Six Provinces, 1924.

Note.—The numbers taking the listed subjects include all pupils of secondary grade in N.S.; secondary pupils enrolled during the second term in N.B.; pupils in secondary schools only (not including secondary pupils in other than secondary schools) in Ontario, Saskatchewan, Alberta and British Columbia. The totals show the total enrolment in the schools presented.
