The sources of the coal consumed in Canada in the calendar years 1901-1925 are shown in Table 31; detailed figures of coal made available for consumption in 1925 are given by areas in Table 32; the difference between the totals of the two tables in the latest year is accounted for by the fact that coal received is not necessarily "cleared for consumption".

Annual Consumption of Coal in Canada, 1901-1925.
 Norg.—For years 1886 to 1900, see 1921 Year Book, p. 354.

The sum of Canadian coal mine sales, colliery consumption, coal supplied to employees, and coal used in making coke, etc., less the tomage of coal exported.

*Includes small tomages from countries other than Great Britain and United States.

32.—Coal Output, Exports, Interprovincial Shipments, Imports and Coal made available for Consumption in Canada, by Provinces, 1925. (Short tons.)
