Governmental Expenditure on Canals.—Tables 46 and 47 deal with the expenditure of the Dominion Government on the construction and maintenance of canals. The items of revenue and expenditure, showing in the fiscal year ended 1926 an increased net outlay as compared with 1925, indicate the net total expended on the maintenance of these water routes. All canals, it may be added, have since 1904 been free of toll to vessels applying for the privilege of locking facilities. The total capital cost of Canadian canals since their construction was begun is set at \$175,812,316. The heavy capital expenditures in recent years are due to the construction of the Welland Ship Canal, on which \$62,732,558 had been spent up to Mar. 31, 1926.
