Subsidies, etc.—The conveyance of mail by land and water entailed a total expenditure during 1925 of \$14,022,814. Land transportation (largely that by rural delivery) cost \$6,157,262; railway carriage cost \$7,283,056, while that by steamship cost \$582,495. These amounts were paid solely for services rendered as carriers. In addition, however, considerable mail is carried, on both the Atlantic and Pacific coasts, by steamships and steamship lines which are especially subsidized by the government. Table 87, showing amounts so paid in 1923, 1924 and 1925, is appended.

## 87.—Mail Subsidies and Steamship Subventions, fiscal years ended Mar. 31, 1923-1925.

Norz.—The figures in the following table are taken from the "Public Accounts," issued by the Finance Department: they represent the amounts paid in connection with contracts made under statutory authority by the Department of Trade and Commerce for trade services, including the conveyance of mails.
