

Lath production increased in quantity from 1,165,819,000 (valued at \$5,975,253) in 1924 to 1,292,963,000 (valued at \$6,415,927) in 1925.

Shingle production showed an increase in both quantity and value from 3,129,501,000, valued at \$10,406,293, in 1924 to 3,156,261,000, valued at \$11,154,773, in 1925.

Pulpwood to the amount of 706,700 cords, valued at \$9,160,976, was cut up, barked or "rossed" in 1925, a decline in quantity and value from 1924. Other products and by-products of the saw-milling industry included sawn ties, box shooks, veneer slabs and edgings, pickets, staves, spoolwood, heading, spoolwood poles, etc., arranged in order of value in 1925. Their aggregate value was \$7,956,650 in 1925 as compared with \$9,519,795 in 1924.

The total value of all products of the sawmill and allied mills in 1925 was \$134,413,845, as compared with \$141,929,559 for 1924, a decrease of 5.3 p.c. due in the main to lower prices. The total capital invested in these mills in 1925 was \$204,134,003, representing an increase of 15 p.c. over the investment in 1924.

Table 3 shows the production of the lumber industry during 1925 by kinds of wood and Table 4 gives the same information by provinces.

### 3.—Total Production of Lumber, Lath and Shingles in Canada, by Kinds of Wood, for the calendar year 1925.

Kinds of Wood.	Lumber.		Lath.		Shingles.
