in addition to supplying over 11 p.c. of the total gross value of all products manufactured in the province, furnished over 48 p.c. of the products of pulp and papermills throughout the country. The gross value of cotton yarn and cloth products from Quebec mills formed almost 71 p.c. of the Dominion total; the gross value of cigars and cigarettes formed 94 p.c. of the same total, the value of railway rolling stock over 52 p.c. and the value of the boot and shoe products (the eighth industry in order of value of products) almost 60 p.c. Thus Quebec is an outstanding manufacturing province rather on account of her great individual industries than because of the diversification of her industrial activities.

11.-Statistics of Forty Leading Industries of the Province of Quebec, 1925.

Nors.—Industries having less than 3 establishments are: Sugar refineries, aluminium products, cementmaking and bridge-building.
