Government Revenue.—The taxation of motor vehicles, garages, chauffeurs, etc., is becoming a lucrative source of provincial government income. In every province the operation of automobiles and motor cycles is dependent on carrying a license duly issued by the various authorities, while similar licenses permit the maintenance of garages and the driving of cars or trucks by hired chauffeurs. Perhaps the most recent form of levy on the use of motor vehicles is the gasolene tax, which in 1926 was assessed in all provinces except Saskatchewan. In that year the revenue from this source represented over 29 p.c. of the total taxation in connection with the operation of motor vehicles. The accompanying table (35) shows the provincial revenue for the year 1926, indicating, at the same time, the more important sources from which it is derived.

<sup>2</sup>Includes trailers in Quebec and taxicabs in Ontario.

2Includes certain miscellaneous registrations in New Brunswick, Quebec and British Columbia.
