

Attention may be drawn to the discrepancy between the value of orders issued in Canada and payable in other countries and those issued elsewhere payable in Canada. This difference (about \$5,500,000 in 1927 and almost \$34,000,000 in 1914) represents to a large extent remittances made by immigrants and to travellers in foreign countries. It is an indication, at least, of the large amounts sent out from Canada, and is an essential figure in the computation of our balance of trade.
