540,364 <sup>30</sup>	623,534	137,752	292,202	139,212	94,903	1,932,963	13
57,000	123,098	24,155	26,122	23,955	20,429	300,149	14

courses and such other figures as have already been included in items 10 and 11. <sup>22</sup>All these are of university standard. <sup>23</sup>Excluding business colleges and Indian schools in Quebec and including Indian schools in N.W.T. and Yukon. <sup>24</sup>In calculating the numbers in elementary and secondary grades, night, special and part-time technical schools and schools for the blind and deaf are left out of the reckoning, except where the night schools were known to be high schools. The numbers in elementary grades in public and private ordinary schools, also in Indian schools are known. Business college courses are assumed to be of secondary rank, also preparatory and short courses at universities and colleges, except in the case of certain affiliated schools in Ontario where allowance was made for the number in elementary grades. The regular courses are clearly of higher grade than secondary. <sup>25</sup>Approximately. Since Grade VIII in New Brunswick includes high school subjects, the enrolment in this grade (about 3,357) might be added to item 14 and deducted from item 13 in which case the number in elementary grades would read 74,015 and in secondary and higher grades 10,647. <sup>26</sup>Approximately. <sup>27</sup>Not including over 19,000 in extension courses in agriculture.

## General Note—

To avoid the confusion that would result from giving totals different from those given in the provincial reports the figures of 1926 are used throughout for Quebec. In all cases except the primary and nursery schools the figures of 1927 are also published in the provincial reports, although the 1926 figures are used in making up their summary. The 1927 figures for each of the items in the above table except items 1 and 7 are as follows:—

Technical and night. (See item 2).....	14,150
Normal schools.....	1,884
Blind and deaf. (See item 5).....	703
Classical colleges. (See item 10).....	10,547
Short, special, etc. (See item 12).....	3,163
Affiliated colleges, etc. (See item 11).....	5,580
Universities. (See item 12)..... (Approx.)	7,130

Further, to avoid confusion, the short courses for teachers at universities and colleges are entered under item 9 instead of item 3. There were about 2,000 teachers in these short courses who might be added to the 8,720 in item 3, making about 10,600 in all in teacher-training. There were in all about 66,000 teachers in Canada.
