Their categories are not known. ⁸Not including about 19,000 in extension courses, but including 1,048 in vacation courses.

GENERAL NOTE.—The total registration is incapable of being freed from misleading features and it is suggested that the total under "C" be taken as the best index of the University population, especially as it is almost satisfactorily comparable for all universities. The extent of incomparability in this item is mainly the non-separation of intra-mural and extra-mural degree students. In the general registration the inclusion of short course students in the case of some universities and their exclusion in the case of others render the total registration defective.
