**Annual Statistics of Fruit Production.**—For each of the years 1919 to 1928, the Dominion Bureau of Statistics and the Fruit Branch of the Dominion Department of Agriculture have collected and published in co-operation statistics (1) of the quantities and values of commercial fruits produced in Canada, and (2) of the varieties and values of fruit trees, bushes and plants sold by nurserymen in Canada. Table 34, following, shows the estimated production and value of commercial fruits in Canada for each of the six years 1923-1928.<sup>2</sup>
