

extended to the camp. The construction of a copper smelter at the Noranda mine was completed and production began in December, 1927. Hydro-electric power is supplied from power plants on the Quinze river.

World's Production of Copper.—The world's production of copper was estimated at 1,883,422 short tons in 1928, as compared with 1,681,634 tons in the preceding year. Canada had an output of 101,348 tons in 1928, producing about 5.4 p.c. of the world's estimated total.

13.—Quantity and Value of Copper Produced in Canada, by Provinces, calendar years 1911-1929.

NOTE.—For the years 1886 to 1910, see Canada Year Book, 1916-17, p. 272. For production in Manitoba and Yukon between 1912 and 1920, included in total, see 1926 Year Book, p. 345.
