

Section 5.—Shipping Constructed and on the Registry.

The shipbuilding industry in Canada dates from the earliest settlement of the country, and up till the 1870's was one of the leading industries of Quebec and of the Maritime Provinces, 490 vessels with a total tonnage of 183,010 being constructed in the calendar year 1874. At this time, however, the advent of the steel ship rendered the wooden vessels, the material for which was so abundant in Canada, obsolete, with the result that the tonnage built has never again reached the above figure, though in the fiscal years 1919 and 1920 the construction of the Canadian Government Merchant Marine, built as an extraordinary measure arising out of the war, raised the totals constructed to 104,444 and 164,074 tons respectively. Statistics of ships built and registered in Canada or sold to other countries are given in Table 57. For further information on the shipbuilding industry, see Table 6 on pages 406 and 407 of the present volume.

57.—Vessels Built and Registered in Canada and Vessels Sold to other Countries, fiscal years ended June 30, 1901-1906, and Mar. 31, 1907-1929.

NOTE.—For 1874-1900, see Canada Year Book, 1911, p. 383.

The numbers and net tonnages of the vessels on the registry of Canada, as at the end of each of the calendar years from 1919 to 1928, are given by provinces in Table 58. In 1928 there were 8,645 vessels with a tonnage of 1,366,074.
