

issued to any additional amount in excess of \$76,000,000, but (except as provided by the Finance Act, 1914—see footnote on page 841) an amount of gold equal to the excess must be held. Thus Dominion notes normally approximate to gold certificates. Under the Act, the Government issues notes of the denominations of 25 cents, \$1, \$2, \$4, \$5, \$50, \$100, \$500 and \$1,000. In addition, "special" notes of the denominations of \$500, \$1,000, \$5,000 and \$50,000 (first issue of the last-mentioned September, 1918), are issued for use between banks only, the purpose being as a safeguard against theft. Table 5 gives the main statistics of Dominion notes circulation and the reserve on which it has been built since 1890, Table 6 statistics of gold held by the Minister of Finance from 1919 to 1929, while Table 7 shows the use of notes of different denominations during the past six years.

<sup>1</sup>Includes provincial notes amounting to \$32,857 in 1890 and reduced gradually to \$27,624 in 1929.

<sup>2</sup>Includes issue of \$50,000 notes, 1919-1929.

<sup>3</sup>Per capita circulation in 1900 is taken as 100.

<sup>4</sup>The circulation uncovered by specie reserve was to a considerable extent covered, between 1890 and 1910, by the holdings of guaranteed debentures amounting to \$1,946,666. Since 1914 it has been partly covered by the holding against it of \$16,000,000 of guaranteed Canadian railway securities (1915 Statutes c. 4) and approved securities. On June 30, 1929, the Dominion notes outstanding against securities approved under the Finance Act, 1923, amounted to \$88,700,000.
