Summary of Fire Insurance in Canada, 1928.—Of the total amount of fire insurance effected in Canada during each year, a part is sold by companies holding provincial licences and permits. Such companies generally confine their operations to the province from which they get authority to operate, but may be allowed at the same time to sell insurance in other provinces. The bulk of fire insurance business, however, is that done by Dominion licensees. Operations in 1928 are summarized in Table 7. Business transacted by unlicensed companies is summarized in Table 8.
