

of the Inspection Service are given in Table 19 for the latest fiscal years for which figures are available. This shows that the non-immigrants (chiefly tourists) admitted in the fiscal year ended Mar. 31, 1930, reached the huge number of 32,400,000, a remarkable figure when it is considered that the normal population of the Dominion is estimated to be about 10,000,000. These non-immigrant admissions have grown by 4,250,000 or 16 p.c. in the last two fiscal years.

19.—Immigrant and Non-Immigrant Admissions and Other Activities of the Immigration Inspection Service of Canada, by Divisions, fiscal years ended Mar. 31, 1928-30.

¹ Number reported incomplete.

In Table 20 will be found the number of trans-oceanic passengers classified as returning Canadians and other non-immigrants who entered Canada through ocean ports in the two latest fiscal years ended Mar. 31, 1929 and 1930. In the non-immigrants admitted at ocean ports, as shown in Table 19, are included tourists and others who have come by water from the United States and Newfoundland, while in Table 20 are included only those who have come across the Atlantic or Pacific oceans. The grand total of such persons was 53,793 in 1930.
