Subsection 9.—Prices of Agricultural Produce.

The average monthly cash prices of representative grades of Canadian wheat, oats, barley, flax and rye in the Winnipeg market, basis in store at Fort William and Port Arthur, will be found for each month from January, 1928, to December, 1930, in Table 41, where the general downward trend in prices over the latest twelve months is particularly noticeable. The average yearly prices of British-grown wheat, barley and oats in the home market are furnished in Table 42; in
