The interprovincial and export movement of live stock in 1929 shows a falling-off in cattle and sheep, but an increase in calves and hogs. Total shipments in 1929, with comparative figures for 1928 in parentheses, were as follows: cattle 443,807 (541,483); calves 184,987 (169,234); swine 676,405 (567,364); and sheep 128,839 (144,640). Ontario was the largest shipper in the aggregate, reporting 86,278 cattle, 128,169 calves, 174,643 swine and 17,236 sheep. Saskatchewan was the largest shipper of cattle with 143,168 head and the second largest shipper of swine with 182,171 head; Alberta led in swine and sheep shipments with 231,461 and 27,282 head respectively.

The marketings of live stock through stock-yards by direct shipment to packers, or by export according to provinces of origin for the calendar year 1929 are given in Table 13. In Table 14 are given the statistics of the grading of animals from five provinces marketed through the stock-yards in 1929.

13.—Live Stock from Several Provinces of Canada, Marketed through Stock-Yards, Packers, etc., calendar year 1929.
