

**Burglary Insurance.**—This type of insurance received but slight attention in Canada until 1918. In 1893, however, one company issued burglary policies. A second followed in 1905, and in 1910 5 companies were operating, while at the end of 1929 60 companies were reported as having sold this type of insurance during the year. The premium income of these companies amounted in 1929 to \$1,218,216 and the losses incurred amounted to \$268,272.

**Hail Insurance.**—Insurance against hailstorms is a class of business of comparatively recent development in Canada. During the year 1929, 40 insurance companies undertook this class of risk, the premiums written amounting to \$3,571,334 and the losses incurred to \$1,013,527. The total premiums for the 19 years during which this business has been carried on in Canada amounted to \$61,592,519 and the total losses paid to \$42,053,602.
