## Subsection 4.—Juvenile Delinquency.

Juveniles under 16 years of age to the number of 7,826 were found guilty of various offences in the year ended Sept. 30, 1929, as compared with 7,699 in 1928, 8,185 in 1927 and 7,831 in 1926, an increase of 127 in the latest year. Of these 5,106 were convicted of "major" offences and 2,720 of "minor" offences, terms which correspond very nearly to "indictable" and "non-indictable" offences, as applied to adults. Convictions for "major" offences numbered 5,063 in 1928 and convictions for "minor" offences 2,636. The offences proven against juveniles in 1928 and 1929 are shown by provinces in Table 35 and by chief types of major offences committed for the years 1923-29 in Table 36.
