

565,545 in 1923. In Tables 5 and 6 will be found a statement for the whole of Canada of each fish and fish product marketed in 1930, with comparative figures for the preceding year—Table 5 dealing with sea fish and Table 6 with products of the inland fisheries. In Table 7 an analysis is made of the change in the value of each product from the preceding year due to variations in price and quantity respectively. On the whole, prices were lower in 1930. In Tables 8 and 9 the numbers of the fish-canning and curing establishments are shown, together with the materials used and values of the products.

5.—Quantities and Values of Sea Fish and Products Marketed, calendar years 1929 and 1930.

Kind of Fish or Product.	1929.		1930.
