Canada's Share in World Trade.—Two tables on pp. 57 and 58 of the Condensed Preliminary Report on the Trade of Canada, 1931, published by the Dominion Bureau of Statistics, and not reproduced here to economise space, show in values and percentages Canada's share in the imports and in the exports of the forty principal trading countries of the world for the calendar years 1913, 1922 and 1929.

Since 1913 Canada has made remarkable progress in the expansion of her export trade to the world's markets, and in supplying her requirements from all parts of the world. The first of the above-mentioned tables showing "Canada's Share in Imports of Principal Countries", indicates that while the total imports of the 40 countries listed increased from 1913 to 1929 by 60 p.c., the share of those imports provided by Canada increased by 215 p.c. In 1913 Canada provided only 1.95 p.c. of the total imports of these countries, while in 1929 her share was 3.83 p.c.
