†Living births in cities of 40,000 population and over, except Montreal and Quebec, are given for 1921-28 on p. 137 in the Canada Year Book of 1930.

‡Though Point Grey and South Vancouver were not incorporated into Vancouver until Jan. 1, 1929, their statistics are included in the figures for Vancouver for the years 1927 and 1928 for purposes of comparison.

**Legitimate Births.**—In Table 6 will be found for each of the provinces the percentages of legitimate children born alive to Canadian-born, British-born and foreign-born mothers respectively in 1930. It is noteworthy that children born to foreign-born mothers outnumbered children born to Canadian-born mothers in the province of Alberta. For the Dominion as a whole, 72.7 p.c. of the children of mothers whose birthplaces were known had Canadian-born mothers, 12.0 p.c. British-born mothers and 15.2 p.c. foreign-born mothers.

It is also significant that the percentage of legitimate children born alive to Canadian-born mothers increased between 1921 and 1930 from 42.3 p.c. to 55.3 p.c. in Manitoba, from 36.1 p.c. to 47.2 p.c. in Saskatchewan, from 30.0 p.c. to 39.4 p.c. in Alberta, and from 29.7 p.c. to 43.2 p.c. in British Columbia. Thus more and more of the children of the West are coming within the class of third generation Canadians.
