¹ Include farms occupied by managers. ² Include mortgage debt on owned parts of farms only. ³ The term "fully-owned" as employed here means the owners who own all of their farms and does not include the owned part of the farms partly owned and partly rented. ⁴ Include taxes on owned farm property only. ⁵ This item represents "cash" paid in each case and does not include the values of products paid by share tenants. ⁶ Occupied farm lands in the Northwest Territories and Yukon have an area of approximately 5,000 acres. (See Table 1, pp. 1032-1033.)
